ONE OF OUR BEST SELLERS! With 3 bedrooms, 2 bathrooms, and over 2,100 square feet of heated space, the Campbell is one of our best sellers for a simple reason: it has many of the best features that our customers look for in a single-story home. The Campbell has a stunning vaulted great room that overlooks the back porch and backyard and is open to the kitchen. The breakfast room is ideal for casual meals and has access to the back porch, whereas the dining room is ideal for larger, more formal gatherings. In addition, there is a sink island with seating and a walk-in pantry. The master suite has a tray ceiling and a master bath with a skirted garden tub, tile walk-in shower, dual vanities, a dedicated toilet closet, and a large walk-in closet. Additional bedrooms are located on a shared hallway off the great room. Covered front and back porches make entertaining guests easy. The Campbell can be customized in a variety of ways to become your dream home. Call today for more information.

**** Price Disclaimer - Please Note – This price is based on structure only built to our standards assuming a slab on grade foundation. No account is taken into for lot specific items such as grading, driveway, landscape, etc. Renderings often show raised foundations, masonry chimneys and upgraded front doors which are potentially upgrades depending on the plan selected. Renderings often show a different grid pattern or window style than what the Building Plans show. Consult with your local design consultant for further details.***
